SCHOOL EVENT DATES TERM #3

>> AUGUST

- 1st Open Girls & 7/8 Girls Netball – Mt Gambier
- Year 12 SATAC Session
- 10th MASA Quiz Night
- 12th Science & Engineering Challenge
- 18th Driver Safety – Parent Information Session
- 22nd Pathways to a Pay Packet Career Expo
- 22nd Year 10/11 River Journey
- 23rd Twilight School Tours
- Year 7/8 State Football Finals
- 24th Governing Council
- 31st Adelaide Show

>> SEPTEMBER

- 1st–9th Adelaide Show
- 7th SE Div B Netball
- 14th Governing Council
- 14th–16th Year 11 Outdoor Ed Camp
- 16th Senior Drama Performance
- 21st Year 12 Music Concert
- 23rd Year 10 Certificate Day
- 29th Year 8 Immunisations
- 30th End of Term 3 – Early Dismissal

From Our Principal...

Dear Families,

Our students continue to experience a wide range of sporting and academic opportunities across Term 3. Our Year 11 and 12 Netballers, coached by Bronwyn Longbottom, were successful in securing a grand final berth in the local competition. The recent STEM Challenge has resulted in our Year 10s, supported by Mr Chris Heddles and Miss Amanda Manglesen, achieving first place at the regional competition, and progressing to the state finals in Adelaide. Our Mathematics faculty facilitated student participation in the annual Maths Quiz Night where our teams' gained awards across all age groups. Accolades included Junior and Senior Best General Knowledge, Intermediate Best Mathematics, and Intermediate and Senior Best Overall Team. We are excited to cheer on Paige Rasheed who has been selected for the State School Sports Team to compete at the National Cross-Country Championships in Adelaide this month, following her 11.52 minute run at the State Championships.

Career Expo

Throughout Term 3 students will be supported through our home group program to explore subject selections for study as part of our Course Counselling process. As a part of this process, we invite families to attend our community event Pathways to a Pay-packet – Career Expo and Information Evening on Monday August 22nd 7pm – 9pm in the Williamson Hall.

New metrics for success

In 2021 The University of Melbourne commenced its New Metrics Partnership joining with leaders (and by extension schools) who wanted to move beyond mere improvement and work together within a research partnership to address the meta-problems faced by Australian schools today and in the future.

Government
of South Australia

Department for Education

We acknowledge the traditional custodians the Meintangk/Moandik people whose land we gather on today for they hold the memories, traditions and culture of Aboriginal people. We pay our respects to ancestors and elders past, present and emerging and respect their continuing connection to land, waters and community. May we continue to walk, feel, hear, touch and learn through this land as they have for thousands of years.

From Our Principal

In 2022 The University of Melbourne offered Naracoorte High School a place as a member of New Metrics for Success: Transforming what we value in schools.

Within this research-practice arrangement, our school is working with experts at the Assessment Research Centre and across the University to support the creation and validation of new metrics.

Naracoorte High school is one of 40 schools nationally and 5 across South Australia, who form the New Metrics Project.

A common ambition of partnership schools is to broaden the post-school pathways for students, by recognising a wider range of their capabilities and attainments than is currently represented in existing senior secondary certificates and records. The initiative is designed to broaden students' own understanding of their capabilities and future options.

Re-forming the design and organisation of learning to reflect new learning ambitions requires commonly agreed metrics for learner success, to be used by the community to measure thriving at school and to provide a better basis for assessing, recognising and improving learning. The University's psychometric team have now completed their analysis of the validation trial data, and the academic team have produced reports and draft empirical learning progressions for partner schools which we now use to inform our educational provisions moving forward.

Teaching Sprints

Across term 2 we engaged in a process of reflective practice using Teaching Sprints to increase teacher expertise in the use of Before During and After Reading Strategies. Our teacher's increased their ability to design learning that focusses students on activities before they read assigned core texts, during the reading of the texts and then after they read them to support our students to improve their reading comprehension and competence in reading academic texts. Last week, teachers reviewed their developed strategies together in professional learning teams. Later this term we will measure the impact on student learning following data collection via PAT reading assessments.

Transition

After the successful Naracoorte Nexus showcasing our subject offerings, our Transition to High School Program continues into Term 3. On Tuesday 25th August we will host Twilight Tours for families to experience the school facilities. Bookings for tours can be made directly by families online by accessing the following link:

<https://forms.office.com/Pages/ResponsePage.aspx?id=6fS7c4gGRkmuqb0LtA7PB6AguZDoIixDmzqB36hO7khUMVNLWEdaOVNFMUITSUpTRVAzOVhIMkJGQy4u>

Staffing Updates

This term we have welcomed Ash Bennier, David Povey, Jessica Moore and Thomas Rechner to the team at Naracoorte High School.

From Our Principal

Year Level Managers

With the increase in available teaching staff, our B1 leaders are now able to provide Year Level oversight. Year Level Managers are responsible for Year Level assemblies, checking in with and supporting home group teachers, referring students internally for additional support and following up concerns as required. Commencing Term 3 our Year Level managers are:

- Year 7 & 8 – Mrs Felicity Slotegraaf
- Year 9 – Miss Sarah Edwards
- Year 10 – Ms Jane Pryor
- Year 11 – Ms Nicky Chant

In addition, our Executive Leadership Team will each take on the role of House Leader to provide case management oversight for students requiring additional support as follows:

- Carter – Mr Kieron Hicks
- Flynn – Ms Tammy Schinckel
- Murdoch – Ms Lynette Corletto

2023 Announcements

Senior Leader: Curriculum & Pedagogy

Felicity Slotegraaf has been appointed to the B3 Senior Leader position commencing 2023 for a three-year tenure.

Felicity brings a breadth of the experience in Curriculum & Pedagogy across a range of aspects, including coaching and mentoring support and a demonstrated record of success in supporting the implementation of agreed teaching strategies across learning areas.

Senior Leader: Inclusive Education

Tammy Schinckel has been appointed to the B3 Senior Leader position commencing 2023 for a five-year tenure.

Tammy brings a breadth of the experience in Inclusive Education across a range of aspects including Flexible Learning Options, South Australian Certificate of Education and Inclusive Education Support Program, alongside a demonstrated ability to engage and connect students to achieve positive outcomes.

Covid-19

Together we continue to follow SA Health advice with respect to living with COVID-19.

Please continue to inform us if your child tests positive for COVID-19 and follow SA Health instructions regarding isolation requirements.

LYNETTE CORLETT

Principal

Chemistry Excursion

As a part of the Stage 2 Chemistry course, our Year 12 students visited Transmutation, Robe.

Students learnt about how plastics are collected and recycled in the Limestone Coast region. A particular focus was on polystyrene products and how they are recycled and repurposed to create a sustainable future.

Brad and Narelle Scott gave insight into their enterprise and how they have collaborated with global companies to develop a sustainable product.

Transmutation is a collection point for Bread Tags for Wheelchairs. They collect polystyrene-based bread tags to create sustainable products whilst donating significant funds to support the wheelchair program.

If you haven't already, it's worth a trip to Robe to visit Transmutation.

A huge thank you to Brad and Narelle for facilitating this worthy learning experience.

SARAH EDWARDS

Science & Mathematics Coordinator

PARENTS & CARERS SURVEY

If you're a parent or carer of one of our students, we want to hear from you!

The annual parent survey is now open and aims to get your views on:

- what we're doing well
- where we can improve
- what's important to you as a parent.

Your feedback will inform our school improvement planning. To complete the survey, follow the unique link emailed to you during the week beginning Monday 1 August. The survey takes less than 10 minutes, but hurry, it closes 5pm on Sunday 28 August.

Your answers will not identify you or your child. Only collated feedback will be provided to our school.

Visit the department's website for more information about the survey. Thank you!

At the end of last term we held the inaugural Naracoorte Nexus.

Displays of work and interactive activities were set up across the hall and new Arts Centre to showcase the learning undertaken across subject areas in our school. It was great to see many families, including those of our 2023 prospective students, take up the opportunity to come in and speak with our staff about the learning at NHS.

The woodwork table was a busy place to be on the night, where wooden spinning tops were created. Many took the opportunity to have a go on the gymnastics equipment, sample food made by our Food Technologies students, purchase items grown in the school Agriculture Hub, as well as experience and understand the technology behind measuring heart rate using exercise bikes and surf boards with our PE staff.

Thank you to everyone who contributed to the evening.

FELICITY SLOTEGRAAF

Year 7 & 8 Year Level Manager

Knockout Basketball

In Week 5 of Term 2, the Open Boys Basketball team travelled to Millicent to take on other public schools from the region in a round robin tournament, with the chance to win through to the State Championships in Adelaide later in the year.

Our day kicked off with a match up against Grant High School. Grant shot out to an early lead through accurate shooting from beyond the arc, but we were able to peg back the lead with some pinpoint passing into the key, and strong finishes at the rim. We were competitive all game but didn't quite have the height to match Grant, going down by 6 points at the final buzzer.

For the second match of the day, we faced off against Penola High. Our momentum from the first game carried over and we got off to a blistering start, hitting our first 5 shots of the match before Penola were able to score. Our boys dictated the play all game with some great defensive pressure from all players to combine with our accuracy on the offensive end, carrying us to a 42-point win, with the final score 47-5.

By our 3rd match of the day, final standings were decided, with NHS unlucky not to make it through to Adelaide. We went into this game knowing it would be a similar style as was played against Grant – fast, skilled, and physical. Scores were neck and neck all game against Mount High, with both sides displaying athleticism and pressure. The game came down to the final minute, however Mount High's defence was tight, and they were able to hold us off – final score 33-30.

Our boys represented the school brilliantly and played hard, fair, and competitive basketball all day. We might not have won through to Adelaide, but we did come home with a solid haul from the Penola Lolly Shop!

ELLIOTT JOHNSON

Teacher

Knockout Basketball

After winning a tough Southeast Schools competition, the Year 7/8 boys basketball team progressed to the State Finals in Adelaide!

The boys played in the minor rounds and had some extremely close games against Bordertown, Millicent, and Keith. A great group of young men who played excellent team basketball, supporting each other throughout the day which ultimately got us through to the State Finals.

Thanks to Jarrod Sears and Nadia Sears who took the boys to Adelaide to compete when Covid protocols made it impossible for me to attend.

TAMMY SCHINCKEL

Coach

After winning a tough Southeast Schools competition, the year 7/8 boys basketball team progressed to the State Finals in Adelaide on Tuesday 28th June. Unfortunately, their head coach Tammy Schinckel was unable to attend, and a big thank you to Jarrod Sears for stepping into her place. The team left Monday straight after school, looking forward to some team bonding, dinner on the way and overnight stay, ready for the next day's state competition. Disappointingly, a school had dropped out of the draw resulting in the boys playing only 12-minute games in a 7 team competition. With such amazing talent in the Naracoorte High team, they finished a convincing 1st place with no other school even getting close. Well done on becoming the State Finalists, a great experience, a great bunch, and a great achievement. Look forward to next year when we advance to the next division.

NADIA SEARS

Team Manager

Knockout Netball

It was a cold and wet day as we headed to Mount Gambier to compete in the 11/12 Knockout Netball Competition.

Although a small team, they performed well as a united group with lots of flexibility on the court. They won the minor round against Kingston, Grant and Penola finishing top and playing a strong Millicent in the Semi Finals. This was a tough match against a tall side but the girls came from three down at half time break to win by one. This put them in the Grand Final against an undefeated and classy Mount Gambier High School.

They started strong and were only two goals down at half time. It was goal for goal in the second half but unfortunately they couldn't quite catch up, ending in a two goal loss.

A huge thanks to Sarah duRand for umpiring all day, Lauren Male for scoring and Khalahni Edwards for team managing.

BRON LONGBOTTOM

Coach

We were all prepared for a typical cold and wet netball day in Penola for the Year 9/10 South East Schools Sports Competition on the 28th July, but instead we had a perfect day!

Our draw was divided into 2 pools, playing 3 games in the minor rounds against Kingston, Grant High & Penola, before a cross over game to start finals. Our team won convincingly in the minor rounds finishing top, therefore, we progressed to the Semi Finals against Millicent. This was a tough game with a slow start in the first quarter, yet the girls started to peg this back in the second and third quarters. Unfortunately Millicent were too strong coming away with the win.

We then played off for third place against St Martins, with the Naracoorte girls finishing off the day with the win. With only 1 loss for the day, finishing third, the girls were a privilege to coach. Thank you to Lucy Henschke for being our umpire and Eliza Bull as Team Manager.

NADIA SEARS & EMMA PHILLIPS

Coaches

Knockout Netball

On 1st August the 7/8 girls travelled to Mount Gambier to compete in the Knockout netball competition.

The girls played well all day and were very competitive. Unfortunately we didn't make it through to Adelaide. Better luck next year girls!

Thank you to Lucy Henschke and Rachel Mahney for helping out on the day.

JESS HICKS

Coach

In 2022, Naracoorte High School's Girls Football once again displayed their skills and prowess in the SA School Schools Sport Football Competition, with the addition of year 7's, to create a year 7-9 team.

Round 1: In Round 1 (Term 2, week 6), the girls travelled to Bordertown where they faced Bordertown High School. Naracoorte held possession throughout the game, making their mark early on the scoreboard. Costly mistakes by Bordertown in the second quarter provided the opportunity for Naracoorte to take a comfortable lead into the second half. In the third quarter though it was Bordertown who turned it on, kicking a number of unanswered goals, leaving the Naracoorte girls shaken heading into the final term. However, our girls turned it around with some dominating performances from Zara East and Evie Koch which helped them secure the game.

Naracoorte High School def. **Bordertown High School**

Goal Scorers: Zara East (5), Chloe Copping (1), Jessica Frick (1)

Best: Zara East, Evie Koch, Summer Batchelor, Cleo Adams

Round 2: In Round 2 (Term 2, week 10), the girls travelled to Tintinara to play against Eastern Fleurieu School (EFS) and St Francis de Sales (SFdS). The girls had a slow start in the first game, allowing EFS to take an early lead. Though the girls had multiple opportunities to even the score, their inaccuracy in front of goals cost them. Despite some strong efforts in the midfield by Zara East, Summer Batchelor and Cleo Adams, EFS were just too strong. **Eastern Fleurieu School 4.3 27** def. **Naracoorte High School 0.5 5**

In Game 2 the girls turned it around, dominating a tired SFdS. Blasting out of the box, they secured an early goal, lifting the spirits of the team. SFdS were not giving up, contesting the ball at every opportunity, sending it towards their forward line. Fortunately, strong contests in the backline by Abby Anderson, Ava Woosnam and Chloe Stewart ensured that SFdS remained goalless.

*Note that EFS played SFdS in between the NHS games.

Naracoorte High School 3.1 19 def. **St Francis de Sales 0.1 1**

Goal Scorers: Zara East, Chloe Stewart, Lucy Midwinter

Best (for the day): Zara East, Summer Batchelor, Evie Koch, Chloe Copping, Cleo Adams.

KATELYN BAKER

Coach

STEM Challenge

The Science and Engineering Challenge is a nationwide STEM outreach program presented by the University of Newcastle in partnership with communities, Rotary clubs, universities and sponsors.

Through the Science and Engineering Challenge, students experience aspects of science and engineering which they would not usually see in their school environment.

On Friday 12th August the Naracoorte High School took an enthusiastic team of Year 10 students to compete in the annual Science and Engineering Challenge in Mount Gambier. With an early start and travelling through a frosty Winter landscape we embarked on Tenison Woods College ready to compete against 7 other teams from the South East.

30 students across both year levels worked in teams of 3-4 to design, construct, and test various problem-solving challenges to accrue points for a final place in the challenge. Activities included coding, designing a bionic hand, earthquake proofing a building, a bridge to transport gold ingots from a mine and items of modular furniture as well as selecting infrastructure to support energy efficient sources of electricity.

But best of all, we WON! Our team will head to Adelaide later this term to compete in the State Finals.

SARAH EDWARDS

Science & Mathematics Coordinator

Congratulations Sarah Edwards! Winner of the Helen Castle Memorial Award.

During the holidays, our Science and Mathematics Coordinator, Sarah Edwards, was awarded the Helen Castle Memorial Award, recognising an outstanding contribution to science education in rural areas and the ongoing development of other country teachers to maintain a high standard of science teaching.

Sarah is an inspirational leader and passionate advocate for STEM and encourages students to recognise and engage in the diverse pathways into STEM careers.

Recently, Sarah has spearheaded a partnership with a local company engaging in the exploration and acquisition of Rare Earth Elements in our local community. She is developing resources aligned with the SACE curriculum and the Australian curriculum for delivery not only for our school, but rather with the intention of sharing this engaging learning with the broader community.

Congratulations on your recognition, Sarah!

MASA Quiz Night

After COVID, the return of the annual MASA Quiz Night was much anticipated in the weeks leading up!

On the 9th of August, Naracoorte High School competed against Bordertown High School and Keith Area School in a maths and general knowledge.

On the night, students worked in teams of four to solve some challenging questions and puzzles fuelled by their excessive pizza and sugar consumption. It was great to see students working collegially with others from different year levels and challenge each others mathematical thinking.

The outstanding effort by our students is a testament to the awards we walked away with:

Junior - Best general knowledge team

Intermediate - Best mathematics team

Intermediate - Best overall team

Senior - Best general knowledge team

Senior - Best overall team

SARAH EDWARDS

Science & Mathematics Coordinator

Library Resource Centre

A total of 3357 items were leant out from the library during Semester 1 2022 including 2530 books, 493 sports uniforms, 14 musical instruments and 60 calculators. A total of 172 items remain outstanding from semester 1. Please ask your students to check at home and to return any overdue items.

Most Popular Books for Semester 1, 2022

Top Fiction

- Liquidator
- One of us is lying
- Found
- Social Queue

Top Graphic Novels

- Claudia and mean Janine
- Mary Anne saves the day
- The truth about Stacey
- Drama
- The girl from the sea
- 7 good reasons not to grow up

Top Quick Reads

- Guinness world records 2022
- Cut to the chase
- School daze
- Where's Wally?
- Diary of a wimpy kid

PREMIER'S READING Challenge

Just three and a half weeks left of this years challenge. If your student needs help finding a few more books to get them finished, they can visit the library and speak to library staff for recommendations or maybe try one of the popular books listed above.

Any personally owned books or books loaned from other libraries that have been read this year can also be included. **The challenge finishes on Friday September 9th 2022.**

Reading not only broadens the mind, it helps to improve students general literacy skills as well as assisting to improve concentration and memory. Reading also provides mental stimulation and can help in reducing stress. If students need assistance in finding a genre to suit them, they just need to visit the library and speak to a library staff member.

Happy reading!

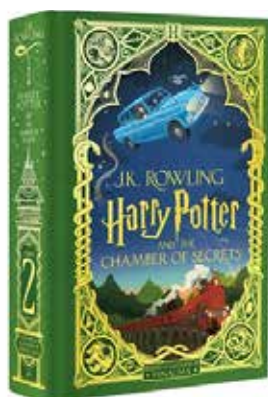

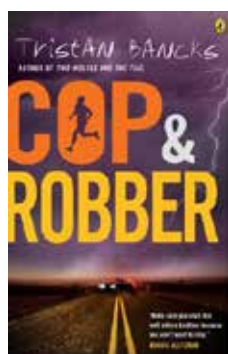

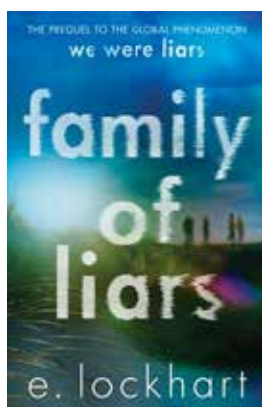

ANITA MILES
Library Manager

Library Resource Centre

Science Week in the Library

New Books!

Hosted Industry Tours

On the 20th June, students participated in a number of Hosted Industry Tours to The Naracoorte Caves Conservation Park. They found out all of the pathways and opportunities involved in Park Management, Environmental Pathways, Tourism and Hospitality. Thanks to Roz, Decima and Brian. On the 27th June the students visited Schinckel Engineering and Naracoorte Automotive. Students learnt about the wide variety of career pathways connected to both of these industries. Thanks to Leon and Brenton for sharing their expertise. On July 5th students attended a Hosted Industry Tour to Struan Research Centre where they learnt all about the huge array of best farm practices, technologies in Agriculture and pathways related to Primary Industries. Thank to Ashleigh, Robyn and Andrew for sharing their knowledge and expertise.

Industry Immersions Day

On July 2nd the Year 10 students participated in another hands on Industry immersion where students had the opportunity to obtain their White Card Certificate, First Aid Certificate, be involved in a Multi Trades immersion involving practical skills around Plumbing, Automotive, and Electrical or be involved in a Hospitality Immersion, learning front of house, fine dining, Barista and food skills. Thanks to North East Vocational College who delivered the White Card, Allen's Training who delivered the First Aid Certificates, McTernan Plumbing, Redding Electrical, Naracoorte Tyre Power and GTE who supported the Multi Trades immersion day and Gather on Gordon who delivered the Hospitality immersion day.

Term 3 Guest Presenters

This Term in Pathways, students have heard from a number of guest speakers. They have undertaken a session on life skills learning about TFN, My Gov accounts, Medicare, Superannuation and 100 point checks. Thanks to Bron for sharing her knowledge in this area. We have also viewed a range of industry focussed videos depicting local industry areas such as Aquaculture, Agriculture, Forestry, Tourism and many more. Students have also learnt about Career Pathway's in the IT area, the Finance area and Teaching. Thanks to Jesse, Brigitta, Gavin and Amanda for sharing their stories and pathways available in all of the areas. At the end of week 3 the year 10 students attend the Stem Challenge in Mount Gambier where they were able to put all their Employability skills that we have been focussing on in Pathways such as problem solving, communication, initiative and team work to the test, and came away victorious. Congratulations to all that participated.

Event Reminder: 'Pathways to a Pay Packet'

On Monday 22nd August we have our "Pathways to a Pay Packet" Career Expo and Information Evening.

Our year 10 students are cooking a BBQ on the evening to raise money towards their Pathways Camp at the end of the year. The BBQ will be available from 6.30pm – 7.00pm so that students can participate in the EXPO. A coffee van will be available on the evening for you to purchase from.

TAMMY SCHINCKEL

Assistant Principal, Flexible Delivery,
Pathways & Senior School

PLEASE NOTE: Proposed dates are subject to change.

A crucial session for all parents.

Your family and our school community need you to attend.

Over 600 teenagers are injured on our roads each year - You can do something about it!
If your child has their Learners Licence (or is due to get it this year) then this will be an essential session for you as a parent or carer.

Parents are most likely to provide much of the driver education for their child, think about this;

- Do you know how to develop and build their driving experiences?
- Do you know how to reduce the risk of crashing or change the severity of the outcome?
- Are you really prepared for the task of supervising a novice driver?
- Have you kept up-to-date with road rule changes?
- Do you know what to look for in a Driving Instructor?
- Do you know what to look for regarding your child's first car?

Many South Australians believe that road fatalities and serious injuries are the result of risk taking or extreme behaviour. However, research shows that more than half of fatal crashes and 90% of injury crashes are due to mistakes, inattention or common lapses in judgement. **Researchers believe that too many young drivers are not being taught well enough or equipped with enough skills and knowledge to drive safely.**

Simply increasing awareness of the dangers of high risk driving does not necessarily lead to less risky behaviour. Save A Life Australia (an independent road safety company) has developed a longer-term approach, which we believe will help to make our families safer on the road.

This highly acclaimed program was originally developed with SA Police and is coming to our school. The program involves students AND parents and is presented by Darren Davis (Today Tonight, ABC Radio and 5aa Radio road safety expert).

It is essential that you attend our parents/supervising drivers evening session and help to make our whole school community more aware of how to make our new drivers better equipped for a safe driving future!

The parent's session will last for approximately one hour and is an informal discussion based session that could make a real difference to your family. **We do NOT sell lessons or advertise any driving school. This session is to help parents with their choices.**

Parent/supervising driver night

Date: 18th August 2022

Time: 6.30pm start

Location/Venue: Naracoorte High School Library

R.S.V.P – Appreciated but not essential.

ONLINE ORDERING NOW AVAILABLE!

The school canteen is now accepting online orders. Download the Flexischools App to start ordering!

Orders must be placed by 9.30am each day.
