## Definitions

### Bullying

A national definition of bullying has been endorsed by the Education Council.

Bullying is an ongoing and deliberate misuse of power in relationships through repeated verbal, physical and/or social behaviour that intends to cause physical, social and/or psychological harm. It can involve an individual or a group misusing their power, or perceived power, over one or more persons who feel unable to stop it from happening.

Bullying can happen in person or online, via various digital platforms and devices and it can be obvious (overt) or hidden (covert). Bullying behaviour is repeated, or has the potential to be repeated, over time (for example, through sharing of digital records).

Bullying of any form or for any reason can have immediate, medium and long-term effects on those involved, including bystanders.

Single incidents and conflict or fights between equals, whether in person or online, are not defined as bullying.

### Bullying has three main features

*It involves a misuse of power in a relationship*

Conflict or fights between equals are not defined as bullying. Bullying occurs where there is a power imbalance. This might come from:

- the context. For example a number of children acting against one child
- personal characteristics. For example different physical, emotional or social development.

### *It is ongoing and repeated*

One incident of misbehavior is generally not defined as bullying. Schools will still respond to all incidents of misbehavior.

One act by one person might be bullying if:

- the behaviour adds to a series of other people's behaviours that misuse power and result in harm
- it can be shared online or with technology to a wide audience, or repeated with multiple views.

### *It involves behaviours that can cause harm*

Bullying can cause physical and psychological harm.

Physical harm can include injury. It can also include theft or damage to belongings.

Psychological harm can include:

- anxiety
- not wanting to go to school
- lack of interest in school
- isolation and depression.

Psychological harm can last some time. It will depend on a student's situation and the support available to them. Support might come from family, school and friends.

A fear of being bullied can create psychological harm.

### **Examples of types of bullying:**

**Physical:** hitting, kicking, tripping, pinching, pushing or damaging or stealing belongings.

**Verbal:** verbal abuse, name calling, insults, taunting, intimidation, threats.

**Social:** social exclusion, lying, spreading rumours, unkind facial expressions or body language, mean and condescending looks, playing jokes to embarrass and humiliate, mimicking and damaging someone's reputation or social relationships.

**Cyber:** Cyberbullying is online bullying. It uses technology, including social media platforms. Verbal and social bullying can be cyberbullying when they occur online.

Cyberbullying includes:

- abusive texts and emails
- hurtful messages, videos and images, including images that have been changed
- sharing personal images and videos without consent
- pretending to be someone else online to be hurtful.

### **Harassment, discrimination and violence**

Bullying, harassment, discrimination and violence all create or add to a negative environment. This can make students feel unsafe and unable to reach their full potential.

#### *Harassment*

Harassment is a behaviour that targets an individual or group. This can be due to their: identity, race, culture or ethnic origin; religion; physical characteristics; gender; sexual orientation; age; or ability.

It offends, humiliates, intimidates or creates an unsafe environment. It might be a pattern of behaviour or a single act. It might be directed randomly or at the same person. It might be on purpose or unintended.

## *Discrimination*

Discrimination happens when people are treated differently to others. This can be because of their: identity, race, culture or ethnic origin; religion; physical characteristics; gender; sexual orientation; age; or ability. Discrimination interferes with people's right to fair treatment and equal opportunities.

## *Violence*

Violence is the intentional use of physical force or power. It can be threatened or actual, against another person. It might result in psychological harm, injury or in some cases death. It might involve provoked or unprovoked acts. It can be one incident, a random act or can happen over time.

Bullying, harassment, discrimination and violence may be based on gender, race, sexuality, culture, religion, disability and care status. Bullying, harassment, discrimination and violence for any reason is not acceptable in South Australian public schools. It will be responded to.

Responses will depend on the:

- behaviours
- needs of the students
- rights of all students to be safely included in learning.

## Roles and Responsibilities

We each have a role to play to:

- prevent bullying and harassment
- respond when it happens
- support those involved and affected by bullying.

The Australian Student Wellbeing Framework elements are leadership, inclusion, student voice, partnerships and support. They guide our practices and responses to prevent and reduce bullying in our school community.
